SECTION B

The following questions ask for your opinions about content based learning. Content based teaching/learning refers to the teaching/learning any subject or part of a subject of the school curriculum in a second/foreign language.

You might agree or disagree with each statement. Using the numbers from 1 to 5 indicate whether you:

- 1 = Strongly disagree with the statement
- 2 = Somewhat disagree with the statement
- 3 = Neither agree nor disagree with the statement
- 4 = Somewhat agree with the statement
- 5 = Strongly agree with the statement

There are no right or wrong answers; we are interested in your honest opinions. Please respond quickly and record your first impression.

Thank you for taking the time to answer these questions.

1	Content based activities can help me to improve language learning.					
2	I think that content based activities help me to learn the subject as well as the target language.					
3	Content based is not effective in getting me to enjoy other cultures.					
4	I think that the teachers in my school really work as a coherent team.					
5	Content based activities should be introduced only in classes where students already know at least 2 other languages.					
6	I find content based methods confusing and frustrating.					
7	Content based activities help me to value the richness of being able to express my ideas using different languages.					
8	I wish the teachers saw more value in me and the job I am doing.					
9	Introducing several languages in class is a waste of time and energy.					
10	I benefit from content based teaching because I use reference materials (e.g., dictionaries, thesaurus, grammars, and internet) more often.					
11	Content based teaching cannot make students					

	appreciate other languages.					
12	I am fully satisfied with my being at student in this school.					
13	In any class, teachers should never refer to the native languages the students know.					
14	I do not see any benefit from content based teaching.					
15	Content based teaching will help me appreciate other languages and cultures.					
16	I would like to change to another school where content based is not used.					
17	Content based activities allow us to make cross-curricular links.					
18	I do not like content based activities.					
19	Content based teaching does not motivate me to learn other languages.					
20	I wish I could be taught the content based subjects in my mother tongue.					
21	Teachers should not allow students speak any other languages in the language class, apart from the target language.					
22	I consider that content based activities help me to transfer skills to other areas of the curriculum different from the language areas.					
23	Content based teaching leads me to negative attitudes toward speaking other languages.					
24	I wish I could change to a new educational centre.					
25	Content based teaching increase my acceptance of people from other cultures or countries.					
26	Teachers should introduce comparisons between different languages and cultures wherever possible, in any subject.					
27	The Educational Authorities are doing their best to improve the quality of public schools.					
28	Content based activities should be integrated into the school curriculum.					
29	Content based teaching methods increase my interest in speaking several languages.					
30	The Director and her/his team are doing an excellent job at our educational institution.					

31	I prefer the traditional approaches to language teaching (e.g., audio-lingual, grammar-based) over content based teaching.					
32	I believe that content based activities help me to learn faster in other areas of the curriculum (different from the language areas).
